Application Note

to the Mutual Recognition Agreement of Cybersecurity Evaluation Certificates
issued under a Fixed-time Certification Process

MRA-FIT-CERT-NOTE-001

Exemptions from Recognition

August 1st, 2024

Version 1.0

Introduction

The Mutual Recognition Agreement of Cybersecurity Evaluation Certificates issued under a Fixed-time Certification Process allows the participants to decline the recognition of a certificate if a national specific methodology is required for the particular product by either of the participants. In this document, the participants list the national specific methodologies that lead to an exception of recognition.

Exemptions

BSI

The Bundesamt für Sicherheit in der Informationstechnik (BSI) does not recognize certificates issued under the application of

- ANSSI-CSPN-Note-06 [Note-06] for Cloud and
- ANSSI-CSPN-Note-08 [Note-08] for Mobile Apps.

The BSI has issued specific requirements for Smart Metering products in the technical guideline BSI-TR-03109 [TR-03109]. The BSI does not recognize certificates issued for products in the scope of this regulation.

ANSSI

No general exemptions from recognition
